

Request for calculation of a future pension for women born in 1960

The calculation is based on your personal situation (marital status, income etc.) and in accordance with the legal provisions in force. Any changes in your situation or to the law applicable (retirement age, eligibility criteria, calculation rules, contribution requirement etc) may have a bearing on your pension entitlement and amount.

An accurate calculation of the OASI (or DI) benefits to which you will actually be entitled to can therefore only be made when the insured event (old-age, death or disability) occurs.

The desired calculation (**one choice only**) concerns a future:

- Old-age pension
- Disability pension
- Survivor's pension (in the event of the applicant's death)

1 Identity

Last name

Including the single name

All first names

The usual first name in capitals

Date of birth

Do you intend to change your occupation rate in the future? no if yes:

a) from what date? _____ (month/year)

b) to what extent? _____ (in %)

c) without professional activity from _____ (month/year)

6 Flexible retirement

For women born in 1960 the reference age is 64.

Early retirement

If you opt for early retirement, your benefits will be reduced for the full duration of your retirement.

Depending on the date on which you submit your application, you can start receiving your entire pension early in accordance with the legal provisions in force until December 2023: at age 63 with a lifelong reduction rate of 6.8%.

From January 2024, the new legal provisions will apply and you will be able to start receiving your entire or partial pension early from month to month.

Do you wish to start receiving your pension early?

No, please provide me with the estimated amount of 100% of the pension at the reference age.

Yes, I choose below a standard **or** a detailed calculation (**only one choice possible**)

standard calculation, i.e. 2 amounts: 12 months early and at the reference age. If the spouse is entitled to a benefit, the possible changes in the pension amounts will also be indicated.

detailed calculation* : you can specify periods or percentages of early retirement. For example, you decide to take 50% of your pension early from 01.01.2024 and increase the early pension share by 20% 6 months from your 64th birthday. The remaining 30% will be paid at the reference age.

Please state the date from which you wish to receive your early pension (at age 63 at the earliest):

Early retirement date from: _____ (dd.mm.yyyy)

Please state the percentage of early retirement:

- entire pension: 100%
- partial pension _____ % (between 20% and 80%)
- potential increase of the early retirement share _____ % from _____ (between 10% and 80%)

N.B. Unless otherwise stated, the remaining early retirement share will be paid at the reference age.

Deferred retirement

You may defer the payment of your pension and will then receive an increased monthly pension.

Do you wish to defer your pension?

No, please provide me with the estimated amount of 100% of the pension at the reference age.

Yes, I choose below a standard or a detailed calculation (**only one choice possible**)

standard calculation including communication of the estimated 100% pension amount at the reference age, together with a table of applicable rates of increase for a revocation between 12 and 60 months.

detailed calculation*: please state below the duration and percentage/s of deferment:

- deferment of the entire or part of the pension _____ % (between 20% and 100%) for a duration of _____ months (between 12 and 60 months)
- reduction of the deferment share _____ % (between 10% and 80%) from _____ (mm.yyyy)

***Detailed calculation**: as a rule, only one detailed calculation is free of charge. For any further requests, a fee of up to CHF 300 may be charged.
